High Burden Households

Prevention and Restoration of Home Energy Service Loss

As a Result of Bill Payment Assistance

As a Result of Equipment Repair or Replacement

- In FY2024, LIHEAP benefits in Nevada **prevented the loss of service 1,656 times**, by stopping threatened utility service disconnections and by delivering fuels to homes that were at risk of running out. In addition, the program **repaired or replaced heating or cooling equipment at imminent risk of failure 170 times**.
- In FY2024, LIHEAP benefits **restored home energy service 1,046 times** for households who had been disconnected by their utility provider or who had run out of fuel oil, propane, or wood. In addition, the program **restored home energy service 70 times by repairing or replacing inoperable heating or cooling equipment**.

* High burden recipient households represent 25% of all recipient households with 12 months of bill data, based on having the highest energy burden. Data are current as of May 31, 2025.
